

# **Boo Games at FIMP: Game Edition**

Boo Games are going to be in attendance at the upcoming FIMP: Game Edition!

For those not already in the know, the event places a special focus on new technologies, education using new technologies and the role of videogames in modern society. Over the course of three days there will be a bunch of workshops, conferences and speakers, all of whom have very interesting things to say about the technology and videogames sectors.

The event runs between 4-6th December and promises to be a great time.

As for us, we will be part of the event on the 5th December, alongside a host of other companies that are looking to promote videogames. We hope to see you there.

Best of all, the final day of the event is competition day, with up to 18 people at a time being able to compete.

Sound like fun? It's happening now so be sure to check out the [FIMP: Game Edition website](#) and head on down!
